OBJECTIVE

Aspiring AI Developer with a strong foundation in Python, Machine Learning, Deep Learning, and Generative AI. Familiar with Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), vector databases, and API development. Seeking an entry-level opportunity to build practical AI solutions, develop intelligent applications, and contribute to solving real-world problems while continuously strengthening technical expertise.

WORK EXPERIENCE

Agentic AI Development Intern SkillAudit.ai

Feb – May 2026

- Gained practical exposure to agentic AI concepts, LLM-powered applications, and AI-driven workflows.
- Explored AI agent development concepts involving tool integration, task automation, and intelligent problem-solving.
- Strengthened understanding of Generative AI applications and the development of AI-powered solutions.
- Python, LLMs, AI Agent Workflows, Tool Integration, Prompt Engineering, and Generative AI Tools.

PROJECTS

CampusConnect AI Customer Support Agent [GitHub Repo]

Sep – Nov 2025

- Built an LLM-powered customer support agent to handle user queries through knowledge-base retrieval and AI-driven responses.
- Implemented tool calling for policy lookup, ticket creation, and human escalation to support end-to-end customer support workflows.
- Integrated conversation memory, SQLite persistence, and automated tests to improve continuity and reliability across interactions.

Signalcraft — GTM Intelligence Agent [GitHub Repo]

Feb – Apr 2026

- Developed an AI-powered go-to-market intelligence agent that analyzes buying signals to assess prospect readiness.
- Implemented a four-dimensional scoring workflow to classify prospects and generate actionable sales recommendations.
- Integrated Cloud Firestore to persist structured prospect scores and support retrieval of intelligence results.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Generative AI/LLMs:** Large Language Models (LLMs), Prompt Engineering, Tool Calling, Google GenAI SDK, Groq API
- **AI Agents:** Agentic AI, Tool Integration, Conversation Memory, AI Workflow Automation
- **Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib
- **Backend Development/Databases:** Flask, REST APIs, SQLite, Google Cloud Firestore, PostgreSQL.
- **Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab

EDUCATION

Kalasalingam Academy of Research and Education 2023 – 2027

B.Tech, Computer Science and Engineering CGPA: 7.03

Narayana Junior College 2021 – 2023

Intermediate (BIEAP) Score: 92.1%

St. Antony School 2021

SSC GPA: 94%

ACHIEVEMENTS

- **Cognizant Technoverse Hackathon 2026:** Exploring innovative solution development using Generative AI and modern engineering tools in a national-level student hackathon.
- **PwC Launchpad CEDA Program:** Completed learning in Cloud Engineering, Python Programming, Modern Data Systems, Generative AI, and Soft Skills.
- **Agentic AI Development Internship:** Successfully completed a two-month internship at SkillAudit.ai and earned the internship certificate.
- **NCC Cadet:** Completed NCC cadet training
